cecotec

ELECTRIC PANEL HEATERS

Heating

Less cold for less energy consumption.

The ideal solution for those seeking to create a warmer and more exclusive environment. Their great versatility for transport and displacement, low consumption, and silent technology make them the ideal winter companion.

Index

ReadyWarm 800 Thermal

Dry thermal emitter, 4 fins, 600 W, LCD display and remote control.

FEATURES:

• 4-fin aluminium electric radiator.
• Minimum consumption, 600 W, allows energy saving.
• 3 Heating modes, choose between Day mode (5-35 °C), Nigh mode (5-25 °C) and Neverfrost mode (5-15 °C).
• WarmTimer, programmable up to 24 hours/day, 7 days/week, and with Auto-off function.
• Smart Control LCD display and remote control, for easier usability.
• Elegant SlimDesign, only 5-cm thickness.
• WarmSpace technology, capable of heating 8 m² fast and efficiently.
• Overprotect System, protection against overheating: AutoOff System that stops the fan heater from operating when it is excessively hot.
• Includes feet and wall bracket for different installation options.
• Security System: safety grid that prevents access to the electric radiator inner parts.

COMPOSITION:

• Electric radiator
• Feet and bracket
• Remote control
• Instruction manual

53 x 10.5 x 62 cm 4.66 kg

42 x 5 (26) x 58 cm 3,5 kg

220-240 V, 50/60 Hz.
600 W

ReadyWarm 1200 Thermal

Dry thermal emitter, 6 fins, 900 W, LCD display and remote control.

FEATURES:

• 6-fin aluminium electric radiator.
• Minimum consumption, 900 W, allows energy saving.
• 3 Heating modes, choose between Day mode (5-35 °C), Nigh mode (5-25 °C) and Neverfrost mode (5-15 °C).
• WarmTimer, programmable up to 24 hours/day, 7 days/week, and Auto-off function for the device to automatically turn off after the scheduled time.
• Smart Control LCD display and remote control, for easier usability.
• Elegant SlimDesign, only 5-cm thickness.
• WarmSpace technology, capable of heating 10 m² fast and efficiently.
• Overprotect System, protection against overheating: AutoOff System that stops the fan heater from operating when it is excessively hot.
• Includes feet and wall bracket for different installation options.
• Security System: safety grid that prevents access to the electric radiator inner parts.

COMPOSITION:

• Electric radiator
• Feet and bracket
• Remote control
• Instruction manual

67 x 10.5 x 62 cm 5.72 kg

55 x 5 (26) x 58 cm 5 kg

ReadyWarm 1800 Thermal

Dry thermal emitter, 8 fins, 1200 W, LCD display and remote control.

FEATURES:
• 8-fin aluminium electric radiator.
• Minimum consumption, 1200 W, allows energy saving.
• 3 Heating modes, choose between Day mode (5-35 °C), Nigh mode (5-25 °C) and Neverfrost mode (5-15 °C).
• WarmTimer, programmable up to 24 hours/day, 7 days/week, and with Auto-off function.
• Smart Control LCD display and remote control, for easier usability.
• Elegant SlimDesign, only 5-cm thickness.
• WarmSpace technology, capable of heating 15 m² fast and efficiently.
• Overprotect System, protection against overheating: AutoOff System that stops the fan heater from operating when it is excessively hot.
• Includes feet and wall bracket for different installation options.
• Security System: safety grid that prevents access to the electric radiator inner parts.
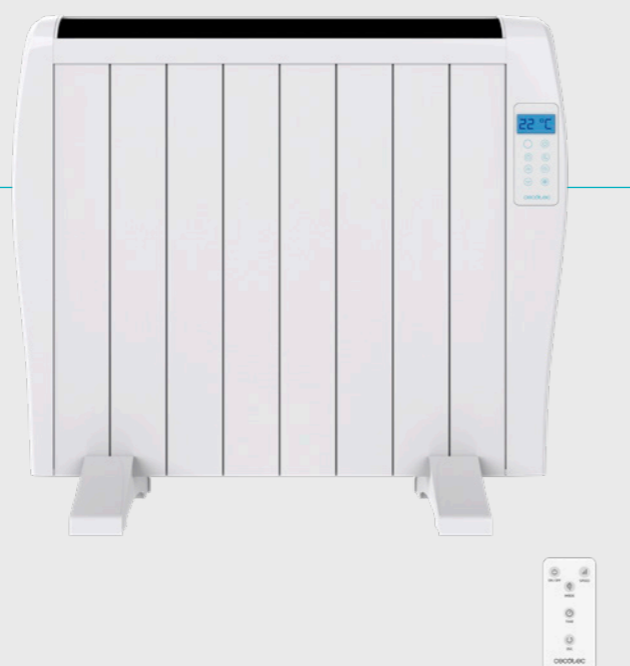

COMPOSITION:
• Electric radiator
• Feet and bracket
• Remote control
• Instruction manual

ReadyWarm 2000 Thermal

Dry thermal emitter, 10 fins, 1500 W, LCD display and remote control.

FEATURES:
• 10-fin aluminium electric radiator.
• Minimum consumption, 1500 W, allows energy saving.
• 3 Heating modes, choose between Day mode (5-35 °C), Nigh mode (5-25 °C) and Neverfrost mode (5-15 °C).
• WarmTimer, programmable up to 24 hours/day, 7 days/week, and Auto-off function for the device to automatically turn off after the scheduled time.
• Smart Control LCD display and remote control, for easier usability.
• Elegant SlimDesign, only 5-cm thickness.
• WarmSpace technology, capable of heating 20 m² fast and efficiently.
• Overprotect System, protection against overheating: AutoOff System that stops the fan heater from operating when it is excessively hot.
• Includes feet and wall bracket for different installation options.
• Security System: safety grid that prevents access to the electric radiator inner parts.

COMPOSITION:
• Electric radiator
• Feet and bracket
• Remote control
• Instruction manual

95 x 10.5 x 62 cm 7.85 kg

83 x 5 (26) x 58 cm 7 kg

ReadyWarm 2500 Thermal

Dry thermal emitter, 12 fins, 1800 W, LCD display and remote control.

FEATURES:
 • 12-fin aluminium electric radiator.
 • Minimum consumption of 1800 W, maximum efficiency and energy saving.
 • 3 Heating modes, choose between Day mode (5-35 °C), Nigh mode (5-25 °C) and Neverfrost mode (5-15 °C).
 • WarmTimer, programmable up to 24 hours/day, 7 days/week, and with Auto-off function.
 • Smart Control LCD display and remote control, for easier usability.
 • Elegant SlimDesign, only 5-cm thickness.
 • WarmSpace technology, capable of heating 25 m² fast and efficiently.
 • Overprotect System, protection against overheating: AutoOff System that stops the fan heater from operating when it is excessively hot.
 • Includes feet and wall bracket for different installation options.
 • Security System: safety grid that prevents access to the electric radiator inner parts.

COMPOSITION:
 • Electric radiator
 • Feet and bracket
 • Remote control
 • Instruction manual

1.1 x 10 x 62 cm 8.95 kg

97 x 5 (26) x 58 cm 8 kg

220-240 V, 50/60 Hz.

ReadyWarm 800 Thermal Black

Electric radiator with 4 fins and 600 W, LCD display, remote control, programmable timer, temperature adjustment, 8-m² coverage area and maximum safety.

FEATURES:
 • The electric radiator is highly powerful due to its 600 W and 4 fins, and capable of heating rooms in a small amount of time.
 • Its wide coverage area of up to 8 m² allows reaching the desired temperature in a short amount of time.
 • Thanks to its LCD display, the operating settings can be easily seen.
 • The heater includes remote control for a total, smart and comfortable control.
 • It has a programmable timer 24/7 with which you can set the time and day you want the device to start working and the operating time.
 • Its thermostat allows the radiator to detect the current room temperature, and select the desired temperature within a range of 5°C and 35°C.
 • Maximum adaptability as it can be installed on the wall or it can be used as portable thanks to its casters.
 • It features 2 safety systems, which include protection against overheating (home protection) and child safety lock (prevents risks arising from accidental use).

COMPOSITION:
 • Electric radiator
 • Feet and bracket
 • Remote control
 • Instruction manual

53 x 10.5 x 62 cm 4.66 kg

42 x 5 (26) x 58 cm 3,5 kg

ReadyWarm 800 Thermal Connected

Electric radiator with 4 fins and 600 W, Wi-Fi control, LED display, remote control, programmable timer, temperature selection, 8-m² coverage area and maximum safety.

FEATURES:
 • The electric radiator is highly powerful due to its 600 W and 4 fins, and capable of heating rooms in a small amount of time.
 • Its wide coverage area of up to 8 m² allows reaching the desired temperature in a short amount of time.
 • Its Wi-Fi control through Smartphone allows setting different heating configurations.
 • Thanks to its LCD display and its remote control, the heater offers completely intelligent and convenient control.
 • It has a programmable timer with which you can set the time at which you want the device to start working and the operating time.
 • Its thermostat allows the radiator to detect the room temperature, and selecting the desired temperature within a range of 5 °C and 40 °C.
 • Maximum adaptability as it can be installed on the wall or it can be used as portable thanks to its casters.
 • It features 2 safety systems, which include protection against overheating (home protection) and child safety lock (prevents risks arising from accidental use).

ReadyWarm 4000 Thermal Ceramic Connected

1000 W electric radiator with cast aluminium and ceramic technology, 4 fins, 12 m², Wi-Fi control, LCD display, 24/7 weekly schedule, IPX4 protection, 4 modes, temperature selection and maximum safety.

FEATURES:
 • Electric radiator with cast aluminium, 4 heating elements and 1000 W great power, with which you can quickly heat the room in which it is placed, of approximately up to 12 m².
 • Thanks to its Ceramic Technology, the electric radiator keeps the temperature and continues to radiate heat for some time after it has been turned off, resulting in economic and environmental savings.
 • Control its operation from your smartphone thanks to the EnergySilence app, along with its LCD display, which allows you to control the heater's operation in a convenient and easy manner.
 • It has a 24/7 programmable timer with which you can set the hour, day of the week and time you want the device to start working.
 • Its IPX4 protection allows you to place the radiator in the bathroom, ensuring maximum safety and calm.
 • It has 4 operating modes to adapt to the needs in every moment: Comfort mode, Eco mode, Anti-frost mode and Open window mode.
 • It allows setting the desired temperature in a room from 5°C to 35°C to enjoy the ideal temperature in every moment and situation.
 • Maximum safety guaranteed thanks to its protection against overheating with AutoOff system, which stops operation automatically in case of overheating, avoiding possible risks. It also has a child lock to prevent unwanted product handling, on/off switch and robust wall mounting.

COMPOSITION:
 • Electric radiator
 • Wall assembly kit
