- Screenblock

* The number of functions will depend on the model.

MAMBO APP*

Get in touch with your inner cook

A great chef is not the one who comes up with great dishes, a great chef is the one who cooks irresistible dishes without having to be in the kitchen. Discover a new way of cooking with the Mambo App** and enjoy cooking like never before.

Mambo knows what you like

Browse the Mambo App, discover new recipes every day, and save your favourites to have them always at hand.

The best chef in and out of the kitchen

The Mambo app will guide you step by step through each recipe and you will also receive alerts while Mambo works its magic so you can enjoy your free time before each meal.

*Not available with Mambo 8090, 8590, 9090, and 9590 models.
**The interface of the Mambo APP may differ from the one shown here depending on the version installed or in force at any given time.

JARS

The key is on the inside

Habana jar

Cooking with love

The Habana jar has a non-stick ceramic coating that is ideal for those recipes that need to be made slowly and with care. Prepare your most delicate recipes such as risottos, chocolates, or stews without worrying and enjoy unique flavours.

Stainless jar

Always ready to take action

The everyday jug, the one that stands up to everything and always looks as good as new. Its high-quality stainless-steel design allows it to do everything from emulsifying, shredding, whipping, grinding, and even crushing ice without wear and tear. And you don't even have to worry about cleaning it: just put it in the dishwasher and that's it.

JAR, 2-LEVEL STEAMER AND BASKET

Cook 4 dishes at once

Forget about cooking in batches and eating your food cold. Mambo prepares 4 different preparations at the same time so that you can enjoy your free time first, and then your recipes.

CAPACITY

Cook big

Forget about cooking in batches even if there are guests at home. The jar has a capacity of 3.3 L so you can cook great recipes without having to spend twice as much time.

HINGED LID*

Even more convenient

Thanks to the hinged lid, you no longer have to worry about where to put the lid between each recipe step. In addition, with its locking system, the lid will always be closed while the motor is running so you can cook in complete safety.

*Available with 11090 and Mambo Touch series.

DOUBLE GEARED MOTOR

Power to move the masses

No one can resist recipes made with Mambo, just as there are no preparations that can resist its super-powerful dual-gear motor. Your food processor can prepare any type of recipe effortlessly at both high and low speeds.

MAMBOMIX

Cook fast and achieve great flavour

The MamboMix spoon is designed to cook with great gentleness and care. Thanks to the SlowMambo motion, the spoon stirs slowly for perfect results in the most delicate recipes such as dough, stews, or risottos.

SPEED 0

Unlimited cooking

Each recipe is different: some need high temperatures, others little movement, and as many variables as you can imagine. That's why Mambo is designed for lidless and speed-0 cooking. It works in a similar way to a traditional pot or frying pan, giving you endless options in the kitchen.

HEATING POWER

Technology that goes beyond the traditional

Cook step by step as your Mambo tells you to or take control of the "cooker" by adjusting its heating power in 10 levels and its temperature degree by degree from 37 ºC to 120 ºC. Adjust your Mambo and don't worry: your food processor will prevent food from sticking or burning so you can enjoy perfect recipes to your liking.

*Functionality only available on speed 0 and for certain types of cooking.

INTEGRATED SCALE

Tailor-made recipes for great results

It's not because of luck that all your recipes come out perfect every time. Mambo cooks with maximum precision from the very first step thanks to its integrated scale. Pour the ingredients into the jar without worrying and Mambo will weigh them for you, because every gram counts and Mambo leaves nothing to chance.

TOUCH DISPLAY

Elaborate dishes? One touch and done

Cooking is easy and intuitive thanks to the SoftScreen TFT display up to 7"*. At a glance you will have full control of each recipe and you will know at all times the steps to follow even if you have no idea about cooking.

*Only available with Mambo 12090 and Mambo Touch with 5".

RECIPE WORLD

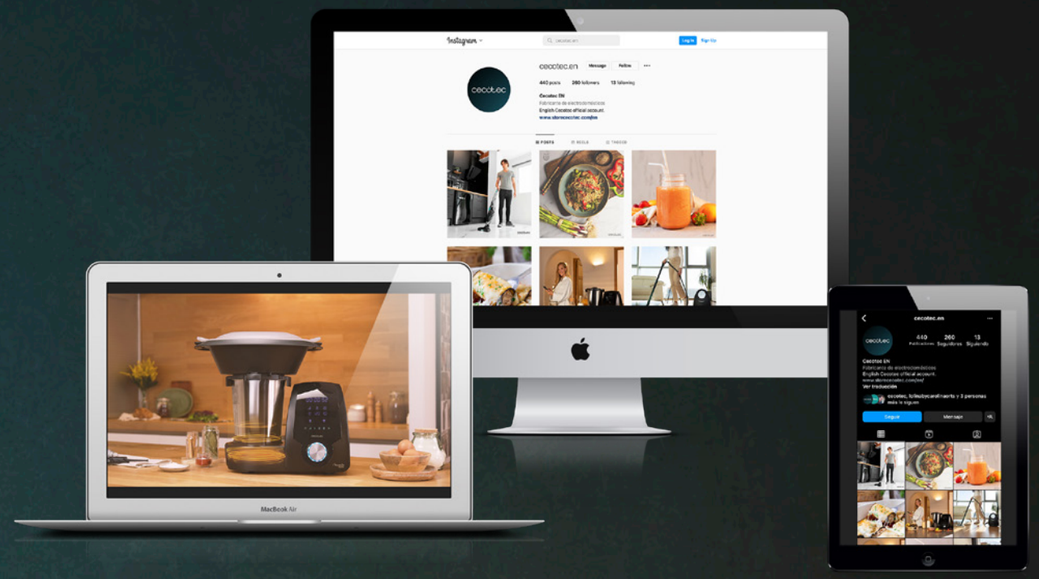

Over 1000 recipes and more every day

Find a host of irresistible recipes to get the most out of your Mambo. In addition to the complete recipe booklet included, Cecotec prepares new recipes every week that you can follow via our app and social networks. And don't miss out on the interactive social community, a great source where food lovers share and discover countless recipes.

AUTO-CLEANING*

It shines on its own

Mambo cooks amazing recipes while you enjoy your time and now it cleans itself. With this new function, the jug will be as good as new in seconds in the quickest and most convenient way.

ONE CLICK*

Start cooking with a single gesture

Change accessories in seconds thanks to the Pull&Go system. Select the accessory your recipe requires, adjust it with a simple gesture and without having to move the jug of your food processor to make cooking even easier and faster.

*Available with 11090 and Mambo Touch series.

60172

Mambo 8090

30-function food processor, includes scale and dishwasher-safe jar made of stainless steel.

FEATURES:

- Emulsify, mix, cook, stir, steam, poach, comfit, knead, simmer, boil, keep warm, ferment, slowmambo, precision cooking degree by degree, bain Marie, slow cooking, speed Zero and Turbo function.
- It integrates a high-precision scale of great precision that weights food inside the jar, allowing you to work with exact quantities and to obtain perfect results.
- High-quality jar made of stainless steel, dishwasher safe.
- Its speed zero allows cooking and stir-frying without speed, as if you were cooking in a pan or pot. It also allows cooking without the lid.
- Its innovating stir-fry function can be used at higher temperatures to brown food, and it operates at top temperature and power.
- Exclusive MamboMix spoon that kneads. As it does not cut doughs, they come out more uniform and with greater volume.
- Its large 3.3-litre jar allows cooking without having to repeat preparations, perfect for all your guests.
- Boiling basket that allows preparing up to 4 different dishes at once. Save time while cooking by using the jar, the basket and the 2-level steamer at the same time.
- It includes a full recipe book and access to the interactive social community and Cecotec weekly recipes.
- Its smart heating power system oscillates between levels 0 an 10, simulating traditional low, medium or high heat cooking. Avoids overheating and prevents foods from sticking or burning.
- Double-gear motor that makes the most of the device when operating at medium or top speeds.
- SlowMambo motion that allows simmering food while mixing it continuously with its spoon, simulating traditional cooking. Achieve intense flavours.
- The measuring cup includes a specific safety lock for mashing or cooking with turbo functions without splashes.
- All the parameters are completely customizable, offering thousands of possibilities to your day-to-day cooking. Time, speed, temperature, heating power and turbo settings can be set as desired.
- The butterfly has a silicone element along its edge to wipe clean the jar's base, offering better results.
- It includes a 2-level large steamer, for steaming food without limits. The accessory is assembled without the jar's lid, for steaming on a greater surface.
- It integrates Security Check System, one of the most advanced security systems for assembling and disassembling blades safely.
- Large user-friendly digital display with touch control panel for better usability.
- It features 10 speeds and adjustable timer, from 1 second to 12 hours. Temperature is adjustable degree by degree, from 37 ºC up to 120 ºC.
- Silicone-coated spatula for easier food removing and jar wipe cleaning.

• Emulsify, mix, cook, stir, steam, poach, comfit, knead, simmer, boil, keep warm, ferment, slowmambo, precision cooking degree by degree, bain Marie, slow cooking, speed Zero and Turbo function.
• Enjoy its smartphone App with an endless number of step-by-step recipes, recipe browser, preset modes for easy handling and manual DIY system.
• It integrates a high-precision scale of great precision that weights food inside the jar, allowing you to work with exact quantities and to obtain perfect results.
• High-quality jar made of stainless steel, dishwasher safe.
• Its speed zero allows cooking and stir-frying without speed, as if you were cooking in a pan or pot. It also allows cooking without the lid.
• Its innovating stir-fry function can be used at higher temperatures to brown food, and it operates at top temperature and power.
• Exclusive MamboMix spoon that kneads. As it does not cut doughs, they come out more uniform and with greater volume.
• Its large 3.3-litre jar allows cooking without having to repeat preparations, perfect for all your guests.
• Boiling basket that allows preparing up to 4 different dishes at once. Save time while cooking by using the jar, the basket and the 2-level steamer at the same time.
• It includes a full recipe book and access to the interactive social community and Cecotec weekly recipes.
• Its smart heating power system oscillates between levels 0 an 10, simulating traditional low, medium or high heat cooking. Avoids overheating and prevents foods from sticking or burning.
• Double-gear motor that makes the most of the device when operating at medium or top speeds.
• SlowMambo motion that allows simmering food while mixing it continuously with its spoon, simulating traditional cooking. Achieve intense flavours.
• The measuring cup includes a specific safety lock for mashing or cooking with turbo functions without splashes.
• All the parameters are completely customizable, offering thousands of possibilities to your day-to-day cooking. Time, speed, temperature, heating power and turbo settings can be set as desired.
• The butterfly has a silicone element along its edge to wipe clean the jar's base, offering better results.
• It includes a 2-level large steamer, for steaming food without limits. The accessory is assembled without the jar's lid, for steaming on a greater surface.
• It integrates Security Check System, one of the most advanced security systems for assembling and disassembling blades safely.
• Large user-friendly digital display with touch control panel for better usability.
• It features 10 speeds and adjustable timer, from 1 second to 12 hours. Temperature is adjustable degree by degree, from 37 ºC up to 120 ºC.
• Silicone-coated spatula for easier food removing and jar wipe cleaning.
